

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The resolution offered by Mr. Clarke on the 12th inst., relative to the inexpediency of any legislation at the present session, having for its object the granting of a charter or an enlargement of any power now possessed by any banking or rail road corporation, with the several amendments thereto, was then taken from the table, when

Mr. Mead offered the following as a substitute for the original resolution and amendments :

Resolved, That while we fully recognize it to be the duty of the Legislature at all times, when in session, to receive petitions presented upon any subject, and have the same respectfully considered, and appropriately acted upon ; yet in view of the near approach of the time for holding a convention to revise the constitution of the state, and the prevailing sentiment among the people, that the power of the Legislature to grant corporate powers and privileges, should be much restricted by the new constitution, and the earnest desire manifested on their part, that the Legislation of the present session should be strictly confined to business of immediate and pressing importance to the public, it is inexpedient, in the judgment of this House, for the Legislature, at its present session, to charter any new banking incorporation ; or to increase, extend, or enlarge the powers of any banking institution now in existence.

REPORTS OF STANDING COMMITTEES.

Mr. Noyes, from the committee on public lands, made the following report :

The committee on public lands, to whom was referred the annual report of the Commissioner of the State Land Office, and so much of the Governor's message as relates to the public lands, have had the same under consideration, and instruct me to make the following report :

That by an act of Congress entitled "an act to appropriate the proceeds of the sales of the public lands, and to grant pre-emption rights," approved Sept. 4, A. D. 1841, this state is entitled to 500-000 acres of land, for purposes of internal improvement, and that only 492,504 41-100 acres have been received, leaving a balance of 7,495 59-100 acres still due the state from the general government. Most of the said balance of 7,495 91-100 acres was selected in the upper peninsula, in this state, under the direction of Governor Felch, and reported to the proper department at Washington for confirmation, but said selections have not as yet been confirmed by the general government.

Your committee are not fully advised why the commissioner of the general land office refuses to sanction the selections made by the state in the mineral regions of Lake Superior. They however find that the law of Congress above referred to, provides that said land may be located on any public land within the state, "except such as is or may be reserved from sale by any law of Congress or proclamation of the President of the United States."

Your committee believe that if the land selected in the upper peninsula is not reserved from sale "by any law of Congress or proclamation of the President of the United States," it is not offered upon the same terms of other land belonging to the general government, which is not supposed to contain valuable mines. They are also of the opinion that land in the lower peninsula is as valuable and will sell as readily as land on Lake Superior, unless the land there selected does happen to contain valuable minerals.

Your committee would therefore recommend that the selections heretofore made in the upper peninsula, be withdrawn, and that the balance of the 500,000 be selected in the lower peninsula.

Your committee also find that twelve sections of the salt spring lands, selected by the state and confirmed by the general government, out of the seventy-two sections to which this state is entitled under a law of Congress entitled "an act supplementary to 'an act entitled an act to establish the northern boundary line of Ohio, and provide for the admission of the state of Michigan into the Union on certain conditions therein expressed,'" approved June 23d, 1836, have been sold and disposed of by the general government, and were in fact so sold and disposed of prior to the passage of said law. By the provisions of said law, said land should have been selected "on or before the first day of January, A. D. 1840," and it is the opinion of the commissioner of the general land office that any selections made by the state under the aforesaid act, "subsequent to the 1st of January 1840, would be illegal; but that the circumstances of the case present a fair claim for the consideration of congress."

That Congress would pass a law allowing the state to select other lands in place of those sold by the general government, your committee cannot doubt, if the subject be properly brought before them; but they are of the opinion that we ought to have not only the same quantity, but the same amount in value. These lands are lying in the settled portions of the counties of Wayne and Macomb, and would be worth at least four dollars per acre, the minimum price of salt spring lands if wild and uncultivated.

Your committee have therefore instructed me to introduce the accompanying joint resolutions, and recommend their passage, and ask to be discharged.

All of which is respectfully submitted.

BETHUEL NOYES, *Ch'n.*

The report was accepted, the committee discharged from further consideration of the subject, and the joint resolution ordered to be printed and placed on the general order.

The committee ask to be discharged from the further consideration of the subject.

The report of the committee was accepted and they discharged from the further consideration of the subject, the bill ordered to be printed and placed upon the general order and referred to the committee of the whole.

Mr. Mead offered the following resolution:

Resolved, That, in the judgment of this House, it is necessary

Mr. Snow, from the committee on education, made the following report:

Which report was accepted.

Mr. Morton, from the committee on banks and incorporations, submitted the following:

The committee on banks and incorporations, to whom was referred the report of the State Treasurer in relation to banks, have had the same under consideration and herewith transmit a bill to carry out the recommendations of that officer.

1st. To empower the State Treasurer to change at his discretion the stocks pledged as security for the notes issued by the banks. This is necessary as the stocks in his possession are constantly becoming due and may be redeemed, and he should have the power to surrender such stocks and exact others as recommended in his report.

2d. To require the State Treasurer to demand additional stocks for those deposited by the banks, which were received at an estimate above their par value, and to provide that hereafter, no stocks shall be received by him, above their par value.

3d. To provide for the delivery to said Treasurer of the plates belonging to the banks, that he may have perfect and absolute power to direct and control the amount of their issues, and prevent any excess of circulation over and above the amount of stocks pledged for the safety of the bill-holder.

The committee also report a section in the bill to enable the Peninsular Bank to carry out the provisions of its charter, which required that the amount of stocks deposited with the State Treasurer should not be less than \$100,000, at any time after the first day of January, 1850. The change proposed to be made, is to substitute the first of January, 1851, by which time the stocks will be deposited with the State Treasurer.

The committee can discover no good objection against the proposed change, as no additional notes can be put in circulation until such stock is deposited as security for their redemption. It is not giving the bank any power not heretofore granted, but merely extends the time to the first of January, 1851, to deposit stocks which the original charter required to be deposited on the first of January of the present year.

E. G. MORTON, *Ch'n.*

The report was accepted, the committee discharged from fur-

ther consideration of the subject, the bill (being entitled a bill in relation to stocks pledged by banks, and for other purposes) ordered printed, referred to the committee of the whole and placed on the general order.

3d. The charter election being held early in March, it is necessary, if the amendments pass, that they should pass immediately, in order that they may go into effect at the next charter election.

That vessels sometimes unfortunately get wind-bound in the St. Clair River. 2nd. That the crews belonging to said wind-bound vessels, not having the fear of the law before their eyes, and in the emphatic language of the petitioners, "not observing the seventh commandment," are in the habit of going on shore, and stealing the peaches, apples and melons belonging to those living upon the borders of said river; in consequence of which, as they say, the enjoyment of their lives is very

materially diminished. But your committee, on a careful examination of the subject, were of the opinion that existing laws afford them ample protection. Yet, this being an extraordinary case, inasmuch as some of the petitioners assure us that unless something is done for them by the legislature, they will be under the hard necessity of leaving for parts unknown, and none of your committee being of the legal profession, but being well aware that gentlemen of that profession are generally men of genius and fertile in expedients, and being anxious that some plan should be adopted to secure to the petitioners the fruits of their vines and their peach trees, the committee have directed me to report the petition back to the House, and recommend that it be referred to the committee on the judiciary; and that your committee be discharged from the further consideration of the subject.

Respectfully submitted,

S. M. SCOTT, Ch'n.

The committee on education, to whom was referred the petition of school district No. 4, in the township of Ypsilanti asking for power to graduate the price of tuition according to the studies pursued by the scholars in their school; and a similar petition of school district No. 1, in the townships of Adrian and Madison, praying also for an amendment of the act entitled an act to enlarge the powers and increase the number of officers in school districts in certain cases, approved March 31, 1849, respectfully report:

That in the judgment of your committee, the prayer of the petitioners asking for power to graduate the price of tuition in their respective districts, with reference to the studies pursued by the scholars respectively, ought to be granted. And as the same reasons which justify the granting of these applications apply equally to all school districts in which the schools have been or may be classified, as provided in section 92 or 93 of chapter 58 of the revised statutes, I have been directed to prepare a bill to accomplish that object.

The amendment desired to the act of 1849, the object of which is

to prevent the diminishing of the boundaries of any school district, availing themselves of that act, without the consent of the enlarged district board, your committee deem reasonable; and I accordingly report a bill to provide for the graduation of the price of tuition in certain school districts, and to amend an act entitled an act to enlarge the powers and increase the number of officers in school districts in certain cases, approved March 31, 1849;

And ask that the committee may be discharged from the further consideration of the subject.

REPORTS OF STANDING COMMITTEES.

Mr. Clarke, from the committee on education, submitted the following report:

The committee on education, to whom was referred Senate bill No. 22, to repeal an act entitled an act for the dissolution of certain school districts in the county of Oakland, approved March 29, 1849, and the remonstrance of J. B. Watson and 56 others, against the repeal of said act, respectfully report:

That upon an inquiry into the facts of the case, they have become satisfied that the passage of the said act of 1849 was ill-advised, to say the least, and possibly obtained through misrepresentation of the wishes of the school district dissolved by it; and your committee are unanimously of the opinion that the said act should be repealed, so that the said district may be entitled to all the privileges which the passage of said act deprived them.

Your committee therefore recommend the passage of said bill, referred to them, and that they be discharged from the further consideration of the subject.

HOVEY K. CLARKE, *Ch'n.*

The report was accepted, the committee discharged from further consideration of the subject, said bill read twice, placed on the general order and referred to the committee of the whole.

Mr. Otis, chairman of committee on roads and bridges, introduced a bill to amend act No. 165 of the session laws of 1848, entitled a act to provide for laying out and establishing certain state roads.

The bill was read twice, ordered printed, placed on the general order and referred to the committee of the whole.

The committee on state affairs, to whom was referred a bill for the relief of F. F. Perkins, have had the same under consideration, and have directed me to report the same back to the House, and recommend that it do not pass, and ask to be discharged from its further consideration.

The report was accepted, the committee so discharged, and leave granted petitioner to withdraw his petition.

The committee on claims, to whom was referred the petition of John B. Hoese, praying the state to pay him damage by reason of the central rail road passing through his farm, have had the same under consideration, and direct their chairman to make the following report:

Your committee find by referring to act No. 42, session laws of 1848, being an act to provide for the sale of the central rail road, and to incorporate the Michigan Central Rail Road Company, that the state sell all their right, title and interest to said road, together with the right of way they then owned, or might become possessed of. But the act provides that nothing in this act shall be so construed as

to make the state liable for any right of way which the state did not own at the time of the acceptance of said charter. So, in the opinion of your committee, the claim of John B. Hoesie is against the Michigan Central Rail Road Company, and not against the State of Michigan. Your committee ask to be discharged from its further consideration.

J. B. PIERCE, *Ch'n.*

The report was accepted, the committee so discharged, and said petition ordered laid on the table.

The Speaker announced the following message from the Senate:

A bill to revive the act to incorporate the Chippewa Portage Company, approved March 17, 1849.

Which, on motion of Mr. Morton,

Mr. Welles, voting with the majority, moved a reconsideration of the vote of Saturday, on the final passage of the bill to amend the revised statutes and to provide for the election of certain officers by the people, in pursuance to an amendment of the constitution.

The Speaker stated the motion to reconsider could not be entertained, the bill having passed out of the possession of the House.

REPORTS OF STANDING COMMITTEES.

ASA H. OTIS, *Ch'n.*

Also the following:

The committee on roads and bridges, to whom was referred the petition of Samuel Stevens and others of Hillsdale county, asking for the laying out of a state road, have had the same under consideration and have instructed their chairman to report adverse to the prayer of said petition, and ask to be discharged from the further consideration of the subject.

A. H. OTIS, *Ch'n.*

The report was accepted, the committee discharged from further consideration of the subject.

Mr. Clarke, from the committee on education, submitted the following report:

The committee on education to whom was referred the petition of John P. Weeks of Grattan in Kent county, praying that a school district may be set off for his accommodation, respectfully report that

they see no reason in the facts set forth in the petition referred to them, for taking the case of the petitioner out of the general law, which has devolved upon the school inspectors of the several townships, the duty of organizing such school districts, and with such boundaries as they think best. It is reasonable to suppose that the inspectors are better able to judge of the merits of such a case as the one presented by the petition before us, than the legislature can be; and if the decisions of the inspectors, either wantonly or unwisely made, injure or oppress the petitioner, as he alleges, his appeals to the people at the township elections will probably afford him all the redress which his case justifies, without disturbing the operation of general laws.

Your committee therefore suggest that the petitioner have leave to withdraw his petition, and they ask to be discharged from its further consideration.

HOVEY K. CLARKE, Ch'n.

The report was accepted, and the committee discharged from the further consideration of the subject.

The committee on claims, to whom was referred the petition for the relief of John H. Child, by payment to him of a certain sum which he claims to be due him for services rendered upon the main road from Lansing in the county of Ingham, to Jackson, in the county of Jackson, have had the same under consideration, and have instructed me to make the following report:

That it is the opinion of your committee that the state is not called upon by any principle of law or equity to allow or pay said claim. It appears upon investigation, that the Legislature of 1848 made an appropriation of land for the purpose of improving the road above described, and that subsequently E. B. Danforth, Esq., was appointed a special commissioner for the purpose of expending the appropriation, in conformity to the above act; and that, in the pursuance of his duties as commissioner, he employed your petitioner to do certain duties and perform certain labors, and for such service he was to receive payment in the lands appropriated for that purpose. Your committee are therefore unanimously of the opinion that the state cannot be under any obligation, legally, equitably or otherwise, to make good any contract that the said special commissioner may have made; but are of the opinion that the said petitioner must seek his remedy of the said commissioner, his employer.

Your committee do not assume to express any opinion on the merit or demerit of the claim set forth by the petitioner. But, perhaps, they may, without prejudice to any interests, be permitted to say that it would, in their opinion, be very bad policy for the Legislature to establish the precedent of allowing and paying claims like the one set forth by the petitioner, in view of the fact that in the year 1848 aforesaid, the Legislature did appropriate, or in other words, give and present to various portions of the state, large amounts of lands for the purpose of making local improvements, and which have been of very limited general benefit or utility to the people of the state at large.

Your committee are therefore of the opinion, in view of the ex-

trame liberality already bestowed on localities, that the state should not now make an additional cash appropriation for the same purpose by allowing this claim, and thereby establishing a precedent that would bring an innumerable host of applicants to our doors, praying for a like settlement of their claims, and a like redress of their grievances.

Your committee would therefore respectfully recommend that no further action be had on the subject matter of this claim, and that the petitioner have leave to withdraw his petition from the files of the House, and the committee be discharged from the further consideration of the subject.

All of which is respectfully submitted.

P. HAYDON.

The report was accepted and the committee discharged from further consideration of the subject.

Mr. Otis, from the committee on roads and bridges, submitted the following report:

The committee on roads and bridges have had under consideration Senate bill No. 48, to amend an act entitled an act to amend chapter 25 of the revised statutes of 1846, relative to laying out roads, and report the said bill back without amendment, recommend its passage and ask to be discharged from further consideration of the subject.

ASA H. OTIS, Ch'n.

The report was accepted, the committee discharged from further consideration of the subject and said bill read twice, when Mr. Duncan moved a suspension of the rules in order to put the same on its third reading.

The motion prevailed, the rules were suspended, said bill read a third time, and on motion of Mr. Morton,

The same was laid on the table and ordered printed.

Also the following:

The committee on roads and bridges have had under consideration Senate bill No. 33, for establishing a certain road in the county of Branch, and beg leave to report that said bill is wholly unnecessary; it being to lay out a road wholly in one township and only 53 chains long. The highway commissioners have full authority to lay out roads in their towns when they are properly applied to, and if they from

any cause refuse to lay out a road, the aggrieved party can appeal to the township board, and they are obliged to view the premises and hear the allegations and proofs of the parties and if in their opinion, the public good will be promoted by laying out said road, the commissioners under their direction are obliged to lay out said proposed road. Therefore your committee recommend that said bill do not pass and ask to be discharged from further consideration of the subject.

ASA H. OTIS, Ch'n.

The report was accepted, the committee discharged from further consideration of the subject, when,

On motion of Mr. Mead,

Said bill was ordered laid on the table.

The report was accepted and the committee discharged from further consideration of the subject.

And also the following:

The committee on judiciary, to whom was referred the bill to vacate certain streets in the village of Hastings, have had the same under consideration, and have directed their chairman to report it back to the House, recommend that it do not pass, and ask to be discharged from its further consideration.

The report was accepted and the committee discharged from further consideration of the subject, and said bill ordered laid on the table and printed.

And the following:

The committee on judiciary to whom was referred the petition of George Carson and others, of the township of Monguagon, county of Wayne, asking for the passage of an act of incorporation for a plank road company, and the petition of John Peters and others, of

Monroe county, for the passage of a law to compel the Southern Rail Road to keep the ditches along said road clear, have directed their chairman to report the same back to the House, recommend their reference to the committee on banks and incorporations, and ask to be discharged from further consideration of the subjects.

The report was accepted, the committee discharged from further consideration of the subjects, and said petitions referred to the committee on banks and incorporations, in accordance with the recommendation of the committee.

Mr. Carpenter, from the committee on printing, submitted the following report:

The committee on printing, who were instructed by a resolution of the House, "to report a bill to repeal an act entitled an act relative to state printing, and to enquire into the expediency of providing forthwith for the restoration of the contract system," have had the same under consideration, and ask leave respectfully to report:

That in obedience to the instructions contained in the first branch of the foregoing resolution, your committee have prepared and submit herewith a bill for the prospective repeal of act No. 74, entitled an act relative to state printing, approved March 12, 1849.

Your committee have also maturely deliberated upon the "expediency of providing forthwith for a restoration of the contract system." If it was intended hereby to make provision to take immediate effect, as the language of the resolution implies, in view of all the facts before them, your committee cannot recommend the measure. The State Printer, in pursuance of the act referred to, was elected by the people for the term of two years, and has entered into heavy bonds for the faithful performance of his duties; and it is well known too, that he has of necessity been subjected to a large outlay of capital. He may be said, therefore, to have acquired rights under the law creating the office, which, to say the least, it would be contrary to sound policy to interfere with by any enactment to take effect during the term for which he was elected.

Your committee, therefore, however objectionable the present system may be in principle, deem it inexpedient to disturb it, except as

contemplated by the bill herewith reported. Your committee ask to be discharged from further consideration of the subject.

Respectfully submitted,

H. D. CARPENTER, Chairman.

The report was accepted, the committee discharged from further consideration of the subject, said bill read twice, ordered printed, placed on the general order, and referred to the committee of the whole.

Mr. Hudson, from the committee on enrollment, reported as correctly enrolled,

A bill to vacate a portion of the village plat of the village of Geneva, in the county of Cass; and

That your committee regard the annual appropriation of a portion of the mill tax to the increase of the township libraries, as a measure of much wisdom—that no consideration, whatever, should be allowed to divert it; and they regret to learn that any township, however small, should be so well satisfied with a library of "338 select volumes," as to be willing to forego, even for two years only, the annual increase to their library which is provided for by law. REPORTS OF STANDING COMMITTEES.

Mr. Cartter from the committee on federal relations, submitted the following report:

The committee on federal relations, to whom was referred the joint resolutions of instructions in relation to the act of Congress providing for the recapture of fugitives from labor, have had the same under consideration, and a majority of said committee have instructed me to report that in their opinion our Senators and Representatives in Congress are well qualified to judge for themselves as to what course they had best pursue in relation to the matters set forth in the resolutions. It is one of the subjects of all absorbing interest, which now occupy the attention of Congress to the exclusion of all other Legislation, and deeply and strongly agitates the whole community throughout the length and breadth of our land. How the matter will terminate rests with the future, and as every day brings forth some new proposition, and every week requires different action, it may be easily inferred that what might be right and wholesome instruction to guide our Senators and Representatives in Congress in their action to-day, might to-morrow be wrong, improper and productive of evil; and the majority of your committee, believing that our constitutional rights are safe in their hands, are of the opinion that no instructions should be given in the least calculated to fetter or restrain the free action of our Senators and Representatives, or force them to hasty and unwise legislation; and having the utmost confi-

dence in their intelligence, integrity and prudence, and relying with implicit faith upon their patriotism, their love of country and abhorrence of disunion and disunionists, the majority of your committee would advise that no restrictions be put upon them and no directions given them in regard to their action in reference to the subject matter of said resolutions, but that they be left free to act in the premises as their better judgments and the circumstances which surround them shall dictate, and at the same time be most conducive of union and harmony, without the fetterings of legislative instructions or the bias of legislative requests. Your committee would therefore return the resolutions to the House, and recommend that no further action be had thereon and ask to be discharged from the further consideration of the subject.

Whereas, the following card has appeared in the public prints of this State:

A CARD.

We, the faculty of the University of Michigan, hereby inform the public that the so-called "Original Report of the Faculty," published by order of the Legislature, in Senate Doc. No. 16, is a false and spurious document, never presented by us to the Board of Regents, and imposed without our knowledge or authority upon the honorable Legislature. The true report, *as presented and read to the Board of Regents*, is that published in said Senate Doc., page 21, and authenticated as a true copy by the secretary of the Board of Regents. The corrections subsequent to the presentation, made with a view to public action, were chiefly verbal, and did not amount, taken altogether, to probably more than five lines. In the above mentioned spurious report, the language of the faculty is falsified and burlesqued; the order of the paragraphs are so changed as to render the statements incoherent; whole paragraphs really presented to the Regents are omitted; numerous fabricated passages are interpolated; and opinions and sentiments are imputed to the faculty which they never expressed or held.

of the Board of Regents and out of all proportion to the services rendered by the claimant.

Resolved, That the Regents are respectfully requested to revoke the bond of submission or resolution under which the claim was submitted to the referees, leaving the claimant to what he may consider his legal rights, if he has any in the matter; thus giving to the people an opportunity of seeing and knowing how and for what purposes the sacred fund against which this claim is sought to be enforced, is to be hereafter applied, that they knowing their rights may be prepared to guard and defend them.

REPORTS OF STANDING COMMITTEES.

Mr. Clarke, from the committee on education, submitted the following report:

The committee on education, to whom was referred a bill to consolidate the laws relative to the establishment of a State Normal School, respectfully report that they have considered the same, and

have directed me to report the same back, recommend its passage, and ask to be discharged from its further consideration.

HOVEY K. CLARKE, Ch'n.

The report was accepted, the committee discharged, said bill, on Mr. Clarke's motion, ordered laid on the table.

Also the following:

The committee on education, to whom was referred the petition of N. C. Parkhurst and many others, ladies and gentlemen of Pontiac, praying for an appropriation of one thousand dollars, (in money or land) from the University fund, for the benefit of the Oakland Female Seminary; and the petition of Harris Stillson and others of Oakland county, asking for a similar grant for the benefit of the Clarkston Academical Institute, respectfully report that the Legislature has no power, in the opinion of your committee, to make such grants out of the University fund. The interest of the state in this fund, or the lands out of which it is created, is only that of a trustee; and by the terms of the trust, the state is obliged to apply them to the purpose for which they were granted by the general government, namely, the maintenance of the University. From this object the state has no power, legal or equitable, to divert them. It is therefore impossible to grant the prayer of the petitioners; and your committee ask to be discharged from the further consideration of the subject.

HOVEY K. CLARKE, Ch'n.

The report was accepted and the committee discharged.

Mr. Kenyon, from the committee on state affairs, submitted the following report:

MESSAGES.

The Speaker announced the following message from the Senate:

SENATE CHAMBER, }
March 7, 1850. }

To the Speaker of the House of Representatives:

Sir—I am instructed to inform you that the Senate have concurred in the report of the joint committee of conference of the two Houses upon a bill to provide for the time, place and manner of holding the convention to revise the constitution, and for the election of delegates thereto, as follows: that the House concur in the Senate amendments disagreed to, and also insert in line seven, section five, between the word "the," and the word "secretaries," the word "president:" also, insert in line five of section three, after the word "judicial," the words "or may be attached for representative."

Very respectfully,

O. W. MOORE,

Sec. of the Senate.

MOTIONS, RESOLUTIONS AND NOTICES.

Mr. Stockton gave notice that he would on some future day ask

leave to introduce a bill to amend an act entitled an act to incorporate the Frederick and Utica Plank Road Company, approved March 30, 1849, No. 207.

Mr. Root moved a reconsideration of the vote of yesterday, taken on the final passage of the bill to amend an act to incorporate the village of Ypsilanti, and the act or acts amendatory thereof.

Which motion prevailed.

A reconsideration of said bill was ordered, and said bill,

On motion of Mr. Spencer,

Ordered laid on the table.

Mr. Roberts introduced joint resolutions in relation to the Union.

Ordered laid over one day under the rule.

Mr. Clarke submitted the following protest:

The undersigned, against the vote by which the House agreed to the report of the committee of conference upon the disagreements between the two Houses relative to the bill to provide for the time, place and manner of holding the convention to revise the constitution, and for the election of delegates thereto, HEREBY PROTEST; and for the following reasons:

1. The report of the committee recommends an amendment to section 5 of the bill, the effect of which may be to increase the pay of the President of the convention, which section having been agreed to by both Houses, the action of the committee upon it was an assumption of power not conferred by their appointment, unwise in its object, and contrary to the expressed will of both houses.

2. The vote of the House agreeing to the report of the committee recommending that the election for delegates to the convention be held on the first Monday of May instead of at the township meetings, devolves on the people not only the expense of a special election, but compels them to devote a day unnecessarily to this election, at an exceedingly busy season of the year, or as the alternative, to lose their voice in the important interests involved in that election; and thus compels them to a choice of evils, which by early and prompt action might have been wholly avoided, and which the undersigned from first to last endeavored to promote.

For these reasons the undersigned dissent from the action of the

House, and claim their constitutional right to have them entered on the journal.

Mr. Nathan Pierce offered the following amendment: Strike out the second and third resolutions, and insert the following:

That while we behold the happiness, wealth and prosperity of the United States of America, whose government is known as the Model Republic of the world, with that universal display upon its national flag and banners, of the words freedom, liberty and equality, that it is with the deepest humiliation and sorrow, that we behold within this free land and nation, more than four millions of slaves!

One fifth part of the people in this free nation, are consigned and continued by the authority of law in human bondage.

And be it further Resolved, That while we as a nation proclaim to the world in that immortal declaration so well known and admired 'as the Declaration of Independance of the United States of America,' "that all men are created equal: that they are endowed by their creator with certain inalienable rights: that among these are life, liberty and the pursuit of happiness:" that with this declaration publicly made to the world, this free government and nation has upheld, supported and promoted slavery for more than seventy years.

And be it further Resolved, That we vorily believe that slavery, or human bondage, is the greatest of human evils, and paramount to all the evils, miseries and oppressions that appertain to the people of this land and nation, and that it should be checked in its progress and finally made to comport with the Declaration of Independance.

And be it further Resolved, That Congress has the power, and it is their duty to prohibit by legislative enactments, the introduction or existance of slavery within any of the territories of the United States, now or hereafter to be acquired.

And be it further Resolved, That our Senators in Congress be instructed and our Representatives requested 'to use all honorable means to accomplish the objects expressed in the foregoing resolutions, and that the Governor of this State be requested to forward copies of these resolutions to our Senators and Representatives in Congress.

Mr. Willson offered the following as a substitute for the amendment of Mr. N. Pierce :

And be it further resolved, That we cordially approve of the following extract of the farewell address of the great, the good Washington to his countrymen, as they inculcate sentiments to which every American freeman ought to respond—knowing no north, no south, no east, no west, and nothing but the perpetuity of the Union:

“Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment. The unity of government which constitutes you one people, is also now dear to you. It is justly so; for it is the main pillar in the edifice of your real independence; the support of your tranquility at home; your peace abroad; of your safety; of your prosperity; of that very liberty which you so highly prize. But, as it is easy to foresee that different causes, and from different quarters, much pains will be taken, many artifices will be employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed, it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it, accustoming yourselves to think and speak of it as the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety, discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly frowning upon the first dawning of any attempt to alienate any portion of our country from the rest, or to enfeeble the same ties which now link together the various parts. For this you have every inducement of sympathy and interest. Citizens by birth, or choice, of a common country, that country has a right to concentrate your affections.

“The name of American, which belongs to you in your national capacity, must always exalt the just pride of patriotism more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint councils, and joint efforts, of common dangers, sufferings and successes.

"But these considerations, however powerfully they address themselves to your sensibility, are greatly outweighed by those which apply more immediately to your interest. Here every portion of our country finds the most commanding motives for carefully guarding and preserving the union of the whole.

"In contemplating the causes which may disturb our Union, it occurs as matter of serious concern that any ground should have been furnished for characterizing parties by geographical discriminations—northern and southern—Atlantic and western; whence designing men may endeavor to excite a belief that there is a real difference of local interests and views. One of the expedients of party to acquire influence within particular districts, is to misrepresent the opinions and views of other districts. You cannot shield yourselves too much against the jealousies and heart-burnings which spring from these misrepresentations—they tend to render alien to each other those who ought to be bound together by fraternal affection.

"In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope they will make the strong and lasting impressions I could wish—that they will control the usual current of the passions, or prevent our nation from running the course which has hitherto marked the destiny of nations; but if I can flatter myself that they may be productive of some practical benefit, some occasional good, that may now and then occur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigue, to guard against the importunes of pretended patriotism, this hope will be full recompense for the solicitude for your welfare by which they have been dictated."

The question was debated by several members, and Mr. Leach having the floor, was called to order by Mr. Roberts, who made the following point of order:

No one is to speak impertinently or beside the question superfluously or tediously.

The Speaker decided Mr. Leach in order, who continued his remarks.

The report was accepted, the committee discharged, and said bill ordered laid on the table.

Also the following:

The committee on roads and bridges, to whom was referred the petition and bill to authorize the inhabitants of certain road districts in the county of Oakland to do their highway labor on roads where they may severally choose to work, have examined the petition and bill, and although the bill is a suitable one to carry out the prayer of the petitioners, yet it is the opinion of your committee that it would not be consistent to require the overseers of road districts to oversee the work, and allow each individual to work where he pleases, but that the commissioners can so divide their town into districts that justice may be done to all. Therefore your committee recommend that said bill do not pass, and ask to be discharged from further consideration of the subject.

ASA H. OTIS, Ch'n.

The report was accepted, the committee discharged, and the bill ordered laid on the table.

And the following:

The committee on roads and bridges to whom was referred petitions of citizens of Hillsdale county, praying an alteration in the highway laws in regard to damages to lands by laying out roads, have had a meeting and examined the petition and laws, and believe the present laws to be sufficient to guard the rights of landholders in this respect; also of petitioners asking a law authorizing overseers of road districts to add to the road tax in their discretion: there being now a bill before the House, granting discretionary power to the highway commissioners in regard to the amount of road taxes, it is

thought by your committee that no action is necessary; they therefore ask to be discharged from further consideration of the subject.

ASA H. OTIS, Ch'n.

The report was accepted and the committee discharged.

Mr. Morton, from the committee on banks and incorporations, submitted the following report:

The committee on incorporations, to whom was referred the bill to incorporate the Kalamazoo and Grand Rapids Plank Road Company, report the same back amended as instructed by the House.

The report was accepted and the committee discharged.

Mr. Hudson, from the committee on enrollment, reported as correctly enrolled,

A bill relative to town plats.

And the same was signed and presented to the Governor.

The laws which now provide for the annual donations to the libraries are necessary to carry out the constitutional injunction in its spirit to a degree of practical and increasing usefulness. To effect this the law should be uniform throughout the State, and your committee are aware of no good reason why the town of Harrison should be exempted from a policy enjoined by the Constitution and maintained in all the other townships, and therefore report adverse to the prayer of the petitioners and ask to be discharged from the further consideration of their petition.

Resolved, That this House will hereafter commence its afternoon session at 2 o'clock P. M. until otherwise ordered.

Mr. Stockton offered the following resolutions relating to the Union:

Whereas, The dissolution of the Union of the States, established by the toil and cemented by the blood of our fathers, has become the subject of daily and familiar discussion, as an event which may happen in our day and generation;

And whereas, The most distinguished and patriotic of our statesmen, revered alike for their love of country and of liberty—men to whom in days of peril and danger, the citizens of our common country have looked not in vain for deliverance from threaten'd evil—have expressed in the national councils their deep apprehensions of the result of the wide spread excitement which has grown out of a mere variance of opinion upon a question of the deepest importance;

And whereas, The people of Michigan are devoted to the Union by the common ties which bind together the people of the various States—ties of blood, of interest, of affection, of common origin and destiny; and to the end that the States of the Union may fully understand that in no event, whatever be the differences of opinion which honestly prevail among our citizens, and in our legislative halls, upon subjects affecting the mutual interests, will the people of this State be found to consider even the peaceable dissolution of the Union as a question to enlist their sectional or party feeling, or engender animosity; that while such a proposition can never enlist in its behalf either their patriotism, their judgment or their feelings, they can look with no less apprehension to such a proposition than to the bolder and still more suicidal idea, that the Union is to be deluged in the blood of a fraternal

war—that repudiating both, as dangerous to civil liberty in their tendencies upon the age in which we live, and deprecating the evil growing out of such discussion, which cannot fail to impress itself upon the young and rising generation, who are soon to take our places upon the great theatre of action, and with whom will soon rest the responsibility of receiving at our hands a government unimpaired, we hope, by any act of ours, and transmitting it, “still one and undivided,” to our common posterity. Therefore,

Be it resolved by the House of Representatives of the State of Michigan, That we view the dissolution of the Union of the States as an event not to be contemplated by any true friend of his country, and to protect us from which calamity we firmly rely on the patriotism of Congress, supported by the wisdom of that benignant Providence which sustained our country in the darkness of the revolution, and secured to our forefathers the civil blessings which we have thus far enjoyed as a nation of freemen.

And be it further resolved, That we view with feelings of deep satisfaction and pride the patriotic efforts of our own distinguished statesman, LEWIS CASS, to preserve the peace, harmony, stability and union of the States, as giving an undeniable assurance that Michigan will not be found, under any circumstances, or in the least degree, accessory to the possible dismemberment of the Union—that she will, in the emphatic language of Gen. Cass, “cling to the Constitution as the mariner clings to the last plank when night and the tempest have closed around him.”

And be it further resolved, That the Governor be requested to transmit a copy of the preamble and these resolutions to the President of the Senate and to the Speaker of the House of Representatives of the United States, with the great seal of State thereto attached, and that those officers be respectfully requested to lay the same before the Houses over which they respectively preside; and that in like manner he be requested to transmit one copy to Lewis Cass, U. S. Senator from this state.

Mr. Stockton moved their adoption, and asked the previous question thereon.

Resolved, That the following resolutions, reported to the Democratic Senatorial Convention, held at Ionia, on the 2d of Oct. last, by S. G. Harris, Esq chairman of committee on resolutions, and adopted by that convention, fully express the views of this House, in relation to slavery in the territories, viz:

Resolved, That we are in favor of the fundamental principles of the Ordinance of 1787; and we believe that Congress has the power, and that it is their duty to prohibit by legislative enactment, the introduction or existence of Slavery within any Territory of the United States, now or hereafter to be acquired.

Resolved, That in the glorious workings of the Ordinance of 1787, as extended over the North West Territory, under which prohibition of Slavery, such exhibitions of happiness and prosperity as have been evinced in the States of Ohio, Indiana, Illinois, Michigan, Wisconsin and Iowa, we recognize our duty to "do unto others as we have been done by," and to forever rid the fair country of New Mexico and California of the blighting curse of involuntary servitude.

Resolved, That we hope and believe that a bill will be passed by Congress, for the government of New Mexico and California, embracing the principles of the Ordinance of 1787; and that the same will be presented to Gen. Zachary Taylor for his signature.

bill was read twice, referred to committee of the whole and placed on the general order.

Mr. Clarke, from the committee on education, to whom was referred the following resolution:

Resolved, That the committee on education be instructed to inquire whether the practice of smoking in this Hall be not detrimental to the health of the members of this House;

Respectfully report that the resolution assumes as a fact that the practice of smoking does prevail in the Hall of the House of Representatives; and, as there is some ambiguity in the kind of smoking alluded to, your committee desire for greater explicitness to say that the *stove* pipes are not, as has been intimated, in any degree to blame; they perform their duty in a manner perfectly satisfactory to all concerned. But, unfortunately, the same cannot be said of all pipes in use here; for there are many, which from the odor they emit, may be reasonably suspected of a diligent pursuit of a most disagreeable vocation from a time whereof the memory of the present smokers runneth not to the contrary. They are daily growing worse, and by the aid of various combinations of tobacco, of every variety of offensiveness, the practice, in the language of a distinguished British statesman, "has increased, is increasing and ought to be diminished."

As to its influence on the health of the members of this House, your committee can only give their opinions inferentially.

If that which produces nausea of the most disagreeable kind, if that which pollutes the air so as to be unfit for the respiration demanded by nearly a hundred pair of lungs from six to eight hours a day, and if the currents of air which are created by the lowering of the windows in order to modify in some degree the evil, be detrimental to health, then there can be no doubt that the smokers and the smoked are all in the same category of danger, from which there is no escape for the latter, but in the forbearance and gentlemanly consideration of the former.

There is another consideration which your committee feel bound

to urge, suggested probably by the relation which they hold to the educational concerns of the State, which is, that a practice which would not be tolerated for a day in any district school in the State, can hardly be justified in this Hall, even by all the intelligence, wisdom, genius, talents, patriotism, good looks and good manners which are here collectively embodied, and your committee will not believe that even the most helpless victim of this most pernicious practice will upon due consideration persist here, in what even on a steam boat, "abaft the shaft," would be regarded as an offence justifying the summary administration of the police of the boat.

Your committee would observe further, that as there is often in the practice of smoking a degree of "involuntary servitude," from which it is even more difficult to escape than for an intelligent slave to follow the north star to freedom, against which a portion of your committee might desire to provide by the most positive prohibitory enactments, yet they are willing to set an example of forbearance in the pressure of this particular measure, which they hope will be appreciated by the House, and on the contrary, they suggest that the application of the remedy be left to the courtesy and sense of propriety of each individual member and officer of this House.

HOVEY K. CLARKE, Ch'n.

The report was accepted and ordered laid on the table.

Mr. Kenyon, from the committee on state affairs, to whom was referred a bill to amend an act entitled an act to grant to school districts and religious denominations of christians, suitable grounds for buildings, and also for other purposes, respectfully report that they have had the same under consideration and have directed their chairman to report the same back to the House and recommend its passage.

REPORTS OF STANDING COMMITTEES.

Mr. Clarke, from the committee on education, to whom was referred Senate bill No. 69, to amend chapter 58 of the revised statutes, with instructions to strike out all the amendments made to said bill by the House, respectfully report, that they have amended the bill in the manner directed by the House, and herewith report the same back to the House, and ask to be discharged from its further consideration.

The report was accepted, the committee discharged, and the bill referred to the order of unfinished business.

The committee on the organization of towns and counties, to whom was referred a bill to alter the township line between Springwells and Greenfield, in the county of Wayne, have had the same under consideration, and have instructed me to report the same back to the House without amendment, and recommend its passage, and ask to be discharged from the further consideration of the subject.

WM. AXFORD, Ch'n.

The committee on the organization of towns and counties, to whom was referred a bill to vacate the village plat of New Milwaukie city, in the Township of Birchville in the county of St. Clair, have had the same under consideration and have instructed me to report the same back to the House without amendment and recommend its passage, and ask to be discharged from the further consideration of the subject.

The reports were accepted, the committee discharged, and said bills ordered printed, referred to the committee of the whole and placed on the general order.

The committee on mines and minerals, to whom were referred several bills to incorporate mining companies, and bills for other pur-

poses, relating to the Upper Peninsula of this state, with instructions, respectfully report:

That they have had the same under consideration and conformed to instructions so far as amending the bills in relation to mining incorporations, that they may be uniform with the bill ordered engrossed for a third reading, and report the same back to the House, asking to be discharged from their further consideration in that respect.

That in relation to the latitude given the committee of reporting in respect to the propriety of adhering to the practice heretofore obtained of exacting from these companies "one per centum per annum on the personal and real estate of said companies in lieu of all other taxes whatever," or of releasing the "personal property of some of the companies from *all other taxes*, and their real estate from all other state tax," your committee unhesitatingly express their regret that there has not been better provisions interposed for the convenience of, if not for the protection of the inhabitants of that section of country.

That it was wise or unwise, constitutional or unconstitutional, on the part of former legislative bodies, to enact such statutes as they have in relation to that region of country, your committee do not consider themselves instructed to manifest a direct opinion; but as to the propriety of fixing upon the proposed amendment conforming to the established charters in the amount of one per centum, with added regulations by statute to divide that one per cent pro rata between the state on the one hand, and the counties wherein these mineral companies may be located, they do not hesitate to say that it is, in their opinion, the most advisable course to be pursued—that if a clause added to these bills, and to be added and attached as modifications to like incorporations granted in 1848-'9, can be accomplished so as to command the payment of one-half per cent into the state treasury for state purposes, and one-half per cent into the respective county treasuries wherein these companies are located, subject to appropriation for county, township, school and highway purposes, by the board of supervisors for such respective counties, it will be the means of rendering justice to all parties concerned, and a source of gratification to all—to the people of the state, of the coun-

ties, of the townships, the non-resident stockholders and the public interest in general.

Your committee arrive to such conclusion from the peculiar position of the region of country in which these bills, in the action being had upon them, have immediate reference. A country which is attracting deep and lively attention to its interests; a country which embraces more than 20,000 square miles; including within its boundaries all that part of the public domain lying within the territorial limits of the sovereignty of Michigan north of the boundaries of the islands of Lakes Superior, Huron and Michigan, and in Green Bay, the straits of Mackinac, and the river Ste Marie, within the jurisdiction of the United States; a country isolated in geographical position almost from the rest of the world, but a country which the God of nature has bestowed upon its face the most bountiful gifts of his handiwork, and embedded in its bosom the richest treasures of his hand; a country known to contain the richest and most extensive mineral wealth as yet discovered, the more valuable fisheries, great advantages in agricultural soil, and a vast commerce of inland seas, if but opened and fostered.

It seems then, to be requisite to enlist and secure foreign capital, that liberal and enlarged legislation should be extended. The capitalist remote from the scene of action, although willing to pay reasonable taxes, is ever anxious to know, before making his advances, what those taxes may amount to, and if they can, under such circumstances as those connected with these mining companies, be fixed safely as sufficient to cover all present or anticipated tax for the thirty years to come, state, county and township, your committee believe such feature should be engrafted upon these bills, and they are of the opinion that it can be, and that it will have the effect of a healthy compromise of the matter with all concerned,

E. J. ROBERTS,
JOHN D. IRVINE.

The report was accepted and the committee discharged and said bill referred to the order of unfinished business.

Mr. Dennis, from the committee on the judiciary, to whom was referred a bill requiring the Auditor General to cancel certain securities executed to him under the general banking law, report the

same back to the House, recommend its passage and ask to be discharged from further consideration of the same.

The report was accepted, the committee discharged, and said bill read twice, referred to the committee of the whole and placed on the general order.

Also, the committee on judiciary, to whom was referred a bill to provide for the publication of certain laws, have had the same under consideration and beg leave to report it back to the House, recommend its passage and ask to be discharged.

The report was accepted, the committee discharged, said bill ordered printed, and referred to the committee of the whole and placed on the general order.

Also, the committee on judiciary, to whom was referred a bill to provide for the appraisal of certain lands in Berrien, beg leave to report the same back to the House and ask to be discharged from further consideration of the same.

The same committee, to whom was referred, with instructions, a bill to amend an act to incorporate the village of Ypsilanti, report the same as instructed, and ask to be discharged from its further consideration.

MOTIONS, RESOLUTIONS AND NOTICES.

Mr. Hayden offered the following preamble and resolutions relative to the preservation of the Union:

Whereas, a majority of this House did on the 18th inst., pass a resolution purporting and setting forth that great dangers, seen and unseen, threaten our beloved country; and by the adoption of said resolution by this House, we are justified in believing that such are the facts, and if so, this Legislature have a solemn and important duty to perform in making provision with all possible despatch to meet the emergency and ward off the threatened danger if possible, and, if not, be prepared to meet it with a firm and patriotic determination that not one glorious limb of this Union shall be lopped off or dissevered while we have stout hearts and ready and willing hands to defend it; and we now, here in this Hall, consecrated to the genius of Liberty and Union, swear anew our allegiance to this glorious Republic, by all our reverence for the immortal dead and by all our glorious recollections of the past; by all the blessings we now enjoy and by all our hopes and aspirations of the future, for ourselves and our children, that we will preserve the glorious inheritance bequeathed to us by our Fathers, and transmit it pure and entire to our children, or we will never survive its dissolution and ruin; and for the purpose of carrying out this declaration of principles to the fullest extent, therefore,

Be it resolved by the House of Representatives of the State of Michigan, That there be and is hereby appropriated out of the gen-

eral funds of this state, not otherwise appropriated, one hundred thousand dollars, and placed at the disposal of the Executive, for the purpose of organizing the militia, procuring arms, ammunition, &c., to the end that we may be prepared to meet promptly any requisition from the general government to repel invasion, punish and suppress insurrection and rebellion, and in fine do all and singular the acts that may be necessary for the true honor and glory of our beloved country and most effectually preserve and protect it from all external and internal enemies.

And be it further Resolved, That we as conservators of the honor and glory of this state, having the most unbounded confidence in General Stockton, of Macomb, one of Michigan's most distinguished sons, whose long tried services, patriotism and devotion to his country as displayed on many a well-fought battle-field when night and the tempest was around him, deserves as the least mark of respect that we can pay him for sustaining and upholding our national flag and preserving our national honor, and protecting our sons in days that are past, and for the more recent and less bloodless but no less distinguished laurels he has won by his unsurpassed gallantry, politeness and devotion to America's fair daughters, all point to him as the master spirit of the age and gives us the blessed assurance that one so ready to conceive and so prompt to execute, arriving rapidly at conclusions as if by intuition, cutting off all cavelling and debate, and bringing his disciplined forces to direct action on the main question, at once point him out as clearly as the noon-day sun, as the man pre-eminently qualified to lead on our patriotic armies to honored graves or a most glorious victory.

And be it further Resolved, That we most cordially and earnestly recommend him to the favorable consideration of his Excellency the Governor, as one eminently qualified for the appointment of General-in-Chief of the armies of this state.

And be it further Resolved, That as an earnest of our devotion to the Union and willingness to share in the danger and perils of its defence, that we do resolve ourselves into a body guard and pledge ourselves to each other and to the world and to our gallant Captain, that we will hold ourselves in readiness when the clarion note of war

shall be heard in our land, to rally around his glorious standard and bravely and gallantly sustain it through all the storms that cloud the brow of war or we find patriot graves beneath its ample folds.

Mr. Stockton moved to amend as follows:

Insert: "for the payment of the northern volunteers, called into service by order of General Taylor, to maintain an unjust and unholy war."

Whereas, The present price of advertising lands to be sold for delinquent taxes in this State, is not in proportion to that of other printing; the tax sales of corporate limits being frequently advertised from five to ten cents for each description, while the State pays thirty;

And whereas, This is detrimental to State policy, oppressive to individual interest, and unjust to the tax-payers; Therefore be it

Resolved, That the committee on printing be instructed to inquire into the propriety, and if expedient to report a bill so to amend the statute laws, fixing the price of printing tax sales, not to exceed ten cents per description, for advertising such description of tax sales.

REPORTS OF STANDING COMMITTEES.

Mr. Clarke, from the committee on education, submitted the following report:

The committee on education, to whom was referred the petition of Henry H. Selter and others, of Bainbridge in Berrien county, asking for a site for a school house on the school section in that town, respectfully report, that the provision of the constitution which requires that the proceeds of all school lands shall be and remain a permanent fund for the support of schools, would seem to forbid infer-

entially, if not in direct terms, the granting of any portion of these lands to the use of any single school district: that the legislature might appropriate money from the principal of the school fund for the purchase of a site for a school district with as much propriety as they could appropriate the land. And the fact that any particular school district could be accommodated by a site upon the school section, will not, in the opinion of your committee, justify the grant of such a site to a district thus situated; for if such a grant were made, it is not easy to see how the right of any school district in the state to a similar favor could be withheld upon any principle of fairness. For either of the 3000 school districts in the state, your committee are not aware that such a favor as that now asked for, has ever been asked or granted. They are therefore opposed to granting the prayer of the petition, and ask to be discharged from its further consideration.

HOVEY K. CLARKE, Ch'n.

Mr. Kenyon submitted the following report:

The committee on state affairs, to whom was referred a bill to encourage emigration, report:

That they have had the same under consideration, and that whatever might have been the differences of opinion as to the creation of the office of emigrant agent by the last Legislature, your committee believe that good policy will not now permit it to be abandoned.

We have committed ourselves as a state to the public authorities of the countries from whence our emigration comes. By our past action, we have beckoned emigrants to our borders. Shall we now reject them? We have given reason to believe that they have our sympathy. Shall we now withhold it? We have virtually pointed out to them a beautiful Peninsula—have laid before their eyes the benign influences of our laws and the blessings which flow from free institutions and extended means of education. They are looking with anxiety to our action in their behalf.

Your committee believe that the state ought not now to recede from the policy to which its honor and integrity stand pledged. They believe the mission will result in great benefit to the state—it will add to the means of felling our forests and cultivating our soil. It will add to our wealth and aid in reducing general taxation. And for these reasons and others which might be urged, your committee earnestly recommend the passage of the bill under consideration.

J. KENYON, Jr., Ch'n.

The report was accepted, the committee discharged and the bill referred to committee of the whole.

A bill to organize the county of Midland;

A bill in relation to certain taxes in the southern part of the county of Gratiot;

A bill to incorporate the Battle Creek Mill Canal Company;

A bill to incorporate the Ontonagon Plank or Train Rail Road Company;

The committee on judiciary, to whom was referred Senate bill to amend an act to consolidate the laws in relation to county courts, and for other purposes, report the same back with amendments, in which the concurrence of the House is asked, and recommend its passage and ask to be discharged.

The report was accepted, the committee discharged, said bill referred to committee of the whole and placed on the general order.

Also the following:

The committee on judiciary, to whom was referred a bill to repeal section 26 of chapter 30 of revised statutes of 1846, report the same back to the House, recommend its passage and ask to be discharged, &c.

The report was accepted, the committee discharged, and said bill referred to committee of the whole and placed on the general order.

Mr. J. B. Pierce reported the claim of R. W. Ingals and others, for newspapers and stationery, and asked their reference to the committee on supplies.

Ordered so referred.

Mr. Moore, from the minority of the committee on state affairs, submitted the following report:

The minority of your committee, to whom was referred Senate bill No. 125, to encourage immigration, do, with great deference for the acts of the Senate and respect for the opinions of a majority of your committee, beg leave most respectfully to report against the passage of the bill.

In the opinion of the undersigned of your committee, the utility of the policy contemplated by this bill is very doubtful, and would be even if carried out in the most able and judicious manner.

From the experiments thus far tried, which have cost the State several thousands, no proof can be deduced by us which favors a longer continuance of the project.

It does not appear to your committee that immigration has been

perceptibly increased by such agency; and we are informed that the flourishing colony located in the county of Allegan was not influenced to our State by the efforts of a *public* agent, as has been represented, but by the efforts of a private gentleman of that county, Mr. Kellogg.

This agency, as your committee understand it, has direct if not entire reference to Germany—than whom a more highly educated and intelligent people do not exist. And it cannot be admitted for a moment that such people generally leave their native country unadvisedly.

They usually migrate in companies, with some very intelligent gentlemen of wealth to conduct the move, with their place of destination fixed before leaving their native home; and the few who come singly commonly follow their respective friends and acquaintances who have preceded them. The ignorant of this class can scarcely be induced to locate elsewhere, and the intelligent are above much control of this kind.

And your committee also object to the manner in which this bill provides for the appointment of such agent.

The members of a joint convention may all know very well what qualifications are necessary to render such an agent efficient—but can we all know who possesses them? And if not, then we cast our vote blindly, and without much responsibility.

What member of such meeting would feel himself responsible for the conduct of an officer so created. And what man would not feel himself accountable for the acts of a public servant, if such servant was placed in power by his act alone?

The power of appointments, which is nearest to the ballot box in effect, is lodged with the Governor and Senate, and when for convenience we depart from the former we should resort to the latter, and then hold the Executive amenable for the integrity and ability of the officer so nominated by him.

In this way the people have a good voucher—"the paper is well endorsed." The Governor being elected by and known to all, is held responsible to all for every public act. In this way we have the same guarantee of the ability and fidelity of an agent so appointed as of the Executive's himself—his standing being equally at stake in both cases.

The full appointing power, *without* the concurrence of the Senate, in the opinion of the undersigned, ought to be very limited—but with this check, it is safer than any other, short of the ballot box.

The minority of your committee are not in love with the *one-man* power—nor in favor of the *no-man* power, and such they consider the joint convention power. But on the contrary, they believe that the people should elect, by direct vote at the polls, all officers who are *within* their knowledge of the *merits* and *capacity* of the candidates. Those beyond this knowledge (and the people are not acquainted with every applicant for a petty office or clerkship connected with the capitol and State departments,) had better be appointed by the Governor and Senate, for without this acquaintance we could not judge of their fitness for such place. But, if it is sought to place the election of an officer or agent entirely above and beyond all responsibility to the people, lodge it in a joint convention, and divide up the responsibility among its several members, and you will have done it most effectually; for, I repeat, no one will feel himself answerable for the conduct of an officer so created; and if any member of such convention should chance to be called to an account by his constituents, I think his reply would run something after this manner:

“Well, I didn’t know anything about the man myself, but somebody told me that he was a very clever fellow, and could exert a good deal of influence in getting through certain important bills—which, by the by, could not stand alone—and so we thought we would try him a year or so. It won’t cost more than ten or twelve hundred dollars, any how.”

And here we have them, two or more at a birth—and monster twins they are—conceived in sin and brought forth in iniquity.

And all this is brought about under the specious plea that we, the Legislature, are nearer the dear people than the Executive is.

Are we nearer the people than the Governor is? Do the people know us better than they do him? Do they watch us more closely? No, no. The people scarcely know us at all—they never heard of many of us before, and may never hear of us again. And hence they should never trust us with any such corrupting powers, but should place it in the hands of such men as are *within* the reach of public censure or commendation—and that is with the Governor and Senate.

HIRAM MOORE.

Mr. Roberts submitted the following:

The committee on mines and minerals having made the amendments to the several bills for mining before the House, in pursuance of instruction, respectfully report the same back and ask to be discharged from their further consideration.

E. J. ROBERTS, Ch'n.

The report was accepted, the committee discharged, and the bills placed on the order of third reading.

Resolved, That the principle of non-action by Congress, upon the subject of negro slavery in the territories of the United States meets the cordial approbation of this meeting.

Resolved, That our able and distinguished Senator, General Cass, in boldly and fearlessly advocating that patriotic principle, in being the first to take and maintain his stand in its defence, has won imperishable honors for himself, and deserves, as he will receive, the gratitude of a free and independent people.

Resolved, That this meeting does most sincerely regret the unwise and pernicious instructions of our late Legislature, upon the subject of slavery—unwise, because they were not needed—pernicious, because they have produced jealousies and fears among our brethren at the South, and have aroused and excited passions, that, in their angry course, threaten and endanger the Union of our free States.

Resolved, That in the opinion of this meeting, justice to the South, justice to the North, and devotion to the Union, demand their unconditional repeal.

Resolved, That the secretary of this meeting prepare and forward a copy of the foregoing resolutions to one of our Representatives in the State Legislature.

The following resolutions were introduced and read by Ichabod

Cole, Esq., and on motion of Hon. William J. Moody, were unanimously adopted:

Resolved, That we believe it to be the duty of the present Legislature to pass such resolutions as shall release our delegation in Congress from the impolitic instructions on the subject of slavery adopted by former Legislatures.

Resolved, That we have full confidence in the patriotism and ability of the democratic members of Congress from this state, and believe that the whole question of the difficulties which now agitate the Union, may well be left, so far as Michigan is concerned, in their hands, with liberty to act as circumstances and existing exigencies may require.

Resolved, That in Gen. Cass, Michigan has a Representative of whom she may well be proud. That we have viewed with high pride and satisfaction, his noble and patriotic course upon the exciting questions pending before Congress; and that he has the cordial approbation and affection, not only of the democracy of Michigan, but of the whole Union. That he has attained a fame which will be as lasting as the Union of which he is the constant and devoted defender.

Resolved, That the democracy of the town of Jackson stand upon the broad platform of the right of the people to self-government, no matter whether they be inhabitants of states or territories of the Federal Union.

Resolved, That the secretary of this meeting be requested to transmit an attested copy of these resolutions to Hon. M. Shoemaker, Senator, and Hon. J. B. Pierce, Representative in the State Legislature, and that they be requested to present them to the respective Houses of which they are members.

W. BUDINGTON, Sec'y.

N. B. The meeting at which the foregoing resolutions were adopted, was the most numerous township assemblage ever held in this town, there being present from 175 to 200 voters; and the resolutions were not only unanimously, but enthusiastically adopted.

W. B.

Ordered laid on the table and printed on the journal, on the motion of Mr. J. B. Pierce.

The committee on education, to whom was referred a bill authorizing the sale of University lands in the county of Oakland, and a bill to reduce the price of University lands in the county of Oakland, in certain cases, respectfully report:

That it appears from inquiries at the office of the commissioner of the land office, that there is now remaining of the University lands in the county of Oakland unsold, about two sections only,—that of these, forty acres have been sold within the past year at the price now fixed by law, twelve dollars per acre,—that probably another parcel will be sold soon after this body shall adjourn, and at the same rate if the price should not be reduced.

Your committee are therefore of opinion that inasmuch as there is no necessity for the sale of these lands at the present time, that the quantity of lands there is not so great as to create any serious evil by remaining unsold for the present,—that an appraisement at this time, when there is so much land in market which can be bought by warrants issued by the state and general governments, would probably result in a serious loss to the fund. These considerations would lead to a conclusion adverse to the object of the bills referred to your

committee. They therefore recommend that they be not passed and ask to be discharged from their further consideration.

HOVEY K. CLARKE, Ch'n.

The report was accepted, the committee discharged, and said bills referred to the committee of the whole and placed on the general order.

Mr. Mead, from a minority of the committee on judiciary, submitted a report in writing.

Ordered laid on the table and 500 copies ordered printed.

Mr. Morton, from the committee on banks and incorporations, reported back a bill to amend an act to incorporate the Genesee County Plank Road Company, without any recommendation thereon.

Said bill was referred to committee of the whole and placed on the general order.

Mr. Burrows submitted the following report:

Your committee on the state prison have had the matter under consideration and believe that the present system of management costs the state altogether too much; and if a more economical system can be adopted it should be entered into with as little delay as possible. Our state labors under heavy taxations, and every measure that can be taken to lessen the expenses of the government will bring relief to the people. According to the message of the Governor, the annual expense of our present system has been about \$10,000 over and above the proceeds of the prisoners. Therefore, being fully aware that this expense may be reduced by a different policy, and believing that the bill now before the House will, if carried into effect, bring about the desired relief and at the same time will be equally advantageous to the prisoners, we would recommend its passage.

D. BURROWS, Ch'n.

The report was accepted and the committee discharged.

By unanimous consent, on motion of Mr. Clarke,

Section 23 of a bill to amend an act to incorporate the village of Kalamazoo, was amended, so as to read as follows:

Sec. 23. The lands within the limits of the corporation shall be set apart from the other districts of the township of Kalamazoo, and placed under the exclusive jurisdiction of the president and trustees,

who shall divide or annex the districts within said corporation from or to each other as they shall deem best, and who shall have and use the same rights, powers and duties as the district boards of school inspectors in the various school districts of the State, and may appoint such subordinate officers as shall be necessary to exercise such rights, powers and duties.

Whereas, Justice, equity and sound policy, as well as the sovereign will of the people demand of the Legislature of Michigan the adoption of a rigid system of economy in all public expenditures;

And whereas, The frugality long practiced in some of the elder states clearly proves that with less money the people may be quite as ably served by their executive and judicial officers, and with more energy and dispatch of business in their legislative halls—and thus by necessity compel an example in our leading men worthy of imitation—and thereby prevent the frauds, bankruptcy and ruin consequent upon an excited spirit of pride and wicked emulation;

And whereas, In as much as an inordinate love of wealth is the controlling passion of the age—thereby rendering man, when acting in a corporate or public capacity, incapable of exercising the virtue of self-denial, nor satisfied with less than the most extravagant precedent will justify; therefore

Resolved, As the sense of this House, that it will be the duty of the revising convention to reduce for our legislators, our executive

and judicial officers, their compensation for public services as justice requires, and that of all other officers in an equitable manner.

Also the following:

The committee on federal relations, to whom was referred sundry petitions and remonstrances in relation to rescinding and re-enacting certain resolutions passed by the Legislature of 1849, and on the subject of slavery generally, have had the same under consideration; the petitions and remonstrances having fulfilled their destiny, they have directed me, as their chairman, to report the same back to the House and recommend that they be laid up in the archives of the State as a perpetual memorial of the political insanity of the age, and ask to be discharged.

Ordered laid on the table.

The committee of conference, to whom was referred the bill to incorporate the Adventure Mining Company, together with several other bills of like character, wherein the House have adopted certain amendments to a general substitute of the Senate, respectfully report that although they are unanimous in the opinion that the amendments of the House should be adopted by the Senate, rather than the petitioners should be deprived of any right or privilege, they recommend that the House recede from the same.

E. J. ROBERTS, Ch'n House Com.

T. F. BRODHEAD, Ch'n Senate Com.

The report of the joint committee was concurred in, and the House receded from their amendments to said bill.

Mr. Carpenter, from the committee on printing, submitted the following report:

A majority of the committee on printing, to whom was referred a

resolution of inquiry relative to the prices paid for advertising lands delinquent for taxes, have had the same under consideration and report, that in their opinion at this late day in the session, no legislation can be had which would remedy the evil, if any exists. The committee have not had time to inquire whether the prices paid are enormous or not. The prices now paid are 20 per cent. less than were paid for some years, and it is shown that the price now paid has been the price established for the last five years and more. Your committee would respectfully ask to be discharged from the further consideration of the subject.

H. D. CARPENTER, Ch'n.

Mr. Hussey, from the same committee, submitted the following:

A minority of the committee on printing, to whom was referred the resolutions offered on the 22nd inst., relative to reducing the price of advertising the delinquent tax sales, have had the same under consideration, and would most respectfully report that we believe the price of advertising such sales at the present rates, is altogether too high, and that there are men in various counties in this State, who are ready to enter into good and sufficient bonds to do the same, for one quarter the present price. Therefore we would recommend for the purpose of reducing the advertising to its proper standard, that the printing of said delinquent tax sales be let by contract in the several counties in this State, to the lowest bidder, who will give satisfactory security for the faithful performance of the same, and we report the accompanying bill, recommend its passage, and ask to be discharged from the further consideration of the subject.

ERASTUS HUSSEY,

Mr. Clarke submitted the following:

The committee on education, to whom was referred a bill to authorize school district No. 1, in the township of Flint, to graduate the price of tuition, respectfully report the same back, and inasmuch as a general law has provided fully for the same object, they recommend that it do not pass, and ask to be discharged from its further consideration.

HOVEY K. CLARKE, *Ch'm.*

The report was accepted, the committee discharged and said bill indefinitely postponed.

Also, the following:

The committee on education, to whom was referred a bill to establish school district No. 11, in the townships of Groveland and Holly, in the county of Oakland, and the remonstrance of sundry persons against the passage of said bill, respectfully report: That principles of sound policy forbid the Legislature to interfere with the duties which are by law imposed on the school inspectors—that such officers are supposed to be better acquainted with the wishes of the people in their immediate vicinity, and your committee are not disposed to distrust the capacity or integrity of the officers whose duties the Legislature is called upon to assume. They therefore recommend that the bill do not pass, and they ask to be discharged from its further consideration.

HOVEY K. CLARKE, *Ch'm.*

The report was accepted, the committee discharged and the bill indefinitely postponed.

And the following:

The committee on education, to whom was referred the petition of Warren Chapman and 159 others, and the petition of George Baick and 32 others, praying for the establishment of a general system of free schools, and a bill to amend chapter 38 of the revised statutes, and a bill to authorize the levying of taxes for the support of primary schools, respectfully report that the action of the House has indicated an unwillingness to take any steps to increase the fund to provide for the support of schools, it will therefore be impossible to establish such a system of free schools as that asked for by the petitioners. If it were possible to procure a corps of free teachers, the desire of the petitioners might be granted, without an increase of the present burden of taxation, but as this cannot be expected just at present, your committee are obliged to relinquish the hope which they entertained that the prayer of the petitioners would be granted, and they ask therefore to be discharged from the further consideration of the subjects referred.

HOVEY K. CLARKE, Ch'n.

The report was accepted, the committee discharged and said bills were severally indefinitely postponed.

And the following:

The committee on education, to whom was referred a bill to authorize the Governor to convey sites for school houses from school and university lands, respectfully report the same back, recommend its passage and ask to be discharged from the further consideration of the subject.

The report was accepted, the committee discharged, said bill read a first and second time, referred to committee of the whole and placed on the general order.

Mr. Clarke also submitted the following from the judiciary committee:

The committee on the judiciary, to whom was referred the petition of Elisha Ely and others, praying that a part of the plat of the village of Allegan may be vacated, respectfully report, that the desire of the petitioners is not expressed with sufficient clearness to enable

your committee to present a bill which would accomplish the end sought without doing injustice to others, and they therefore ask to be discharged from its further consideration.

The report was accepted and the committee discharged.

Mr. Sedgwick, from the judiciary committee, to whom was referred a joint resolution relative to the Farmers' and Mechanics' Bank submitted a report in relation thereto, in writing.

Mr. Cartter moved its indefinite postponement. Lost.

Mr. Clarke moved that it be laid on the table and printed. Agreed to.

Mr. Cartter, from the same committee, dissented from the last report of the majority of the judiciary committee, and asked to have such entered on the journal.

Mr. Nathan Pierce, from the minority of the committee on federal relations, submitted a report in writing and resolutions on the subject of slavery.

Ordered laid on the table.

Mr. Quackenboss submitted the following report:

The majority of the committee of conference, upon the disagreement between the two Houses upon the bill to amend an act entitled an act in aid of the Michigan State Agricultural Society, approved March 31, 1849, report: That they have agreed to the following amendment to said bill: Strike out, in line 4, the words "one thousand," and insert "six hundred," and recommend that both Houses concur therein. All which is respectfully submitted.

TITUS DORT,
D. S. WALBRIDGE,
JOHN BOWNE,
Committee of the Senate.
D. G. QUACKENBOSS,
E. J. ROBERTS,

Committee of the House.

Mr. Hayden, from the minority of said committee of conference, submitted the following:

The minority of the committee of conference on the disagreement between the two Houses on a bill to encourage agriculture by appropriating money out of the state treasury for that purpose, begs

leave most respectfully to report: That in the opinion of the minority of your committee, the power of the Legislature to appropriate money for such a purpose, thereby taxing the many for the benefit of the few, is, to say the least, doubtful; and, in view of the large amount of taxes which must be raised this year to defray extraordinary expenditures, is, in the opinion of your committee, inexpedient to add one dollar more than is imperatively necessary to the already almost unbearable burthens of the people. Your committee therefore recommend that the House adhere to their amendment to the bill.

P. HAYDEN.

The report of the majority of said committee was non-concurred in.

SENATE CHAMBER, }
Lansing, April 2, 1850. }

To the Speaker of the House of Representatives:

SIR—I am instructed to return herewith,

1. A bill to provide for the better management and care of the State Library;
2. A bill to provide for the publication of certain laws;
3. A bill for the relief of the county of Chippewa;

Mr. Dennis, by unanimous consent of the House, introduced a bill to provide for repairing Senate Chamber and Hall of Representatives. Read a first and second time, and referred to the committee of the whole.

Mr. Cartter, by unanimous consent, submitted the following report:

The undersigned, minority of the committee on the joint resolution relative to the Farmers' and Mechanics' Bank, asks leave respectfully to report that from all the evidence presented, when taken in connection with the terms of the act of 1849, entitled an act to continue for a limited time the charter of the Farmers' and Mechanics' Bank of Michigan, the conclusion appears irresistible, that the assent which has been filed by the corporators of said bank is not such an assent as was contemplated by the act above referred to. That the persons who were stockholders of said corporation on the 24th of March, 1849, (the date of the approval of the act,) are not made personally liable for the debts and the redemption of the issues of said bank by the assent which has been filed, and that there is now no other security for the payment of the debts and the redemption of the issues of said bank than the honor and good faith of its managing officers, which has heretofore been found totally unavailable in all cases where the people asked for a redemption of the promises of these "soulless corporations," and the undersigned would warn this House against the consequences of an indirect endorsement of the soundness of said bank, and the people against trusting in the good faith of its managing officers, or the personal liability of its stockholders, which can never be enforced as they have never assented to become liable. It is believed that there is no safety to the bill holders but in prompt and immediate action. The undersigned would therefore recommend the passage of the joint resolution instructing the Attorney General to take such steps as may be necessary in the case.

H. CARTTER.

The report was accepted, ordered laid on the table and printed.

A bill for the relief of Thomas N. Bartlett, being under consideration,

Mr. Noyes moved to strike out all after the enacting clause. Lost.

Mr. Noyes moved its indefinite postponement.

Pending which,

On motion of Mr. Morton,

It was ordered laid on the table.

The House then resolved itself into committee of the whole on the general order, Mr. Stockton in the chair.

And after spending some time thereon, arose, and by their chairman reported back the following entitled bills:

1. A bill authorizing the State Treasurer to subscribe for certain telegraph stock;
2. A bill to regulate and fix the prices to be paid for State printing, and for other purposes;
3. A bill to provide for repairing Senate Chamber and Hall of Representatives;
4. A bill to authorize Phillip Winegar, guardian of certain minors, to convey real estate;
5. A bill to amend an act entitled an act to grant to school districts and religious denominations of professing christians, suitable grounds in the town of Michigan, belonging to the State, whereon to erect houses of worship, and school houses; and

The report was accepted and the committee discharged.

The first named bill being under consideration, Mr. Noyes moved to lay the same on the table. Lost.

Mr. Noyes then moved to strike out the words "State Treasurer" where they occur and insert "Governor." Lost.

The bill was then ordered to be read a third time, was so read and passed by the following vote:

The Speaker then resumed the Chair and addressed the House as follows:

GENTLEMEN OF THE HOUSE OF REPRESENTATIVES :—

Your labors are nearly closed, and you are about to part to return to your constituents, your families and friends.

Your duties have detained you much longer than was anticipated; but truth will bear witness to your untiring industry, and the ardent desire manifested by all to adjourn at the earliest possible period compatible with the interests intrusted to your care.

The vast amount of local legislation, incident to our rapid progress—marching as we are, in all the elements of improvement, wealth and population, with gigantic strides towards the front rank among our sister States—forbids for the present as short sessions as we could desire, without the most hasty and inconsiderate action.

The convention soon to assemble to revise our constitution, may, it is hoped, relieve future Legislatures of much labor of a strictly local character, pertaining to counties and townships, which has devolved upon you, and which has employed much time and attention.

Gentlemen, permit me to take this occasion to tender to you my heart-felt thanks and grateful acknowledgments for the good feeling, kindness and courtesy that you have uniformly and on all occa-

sions shown me as your presiding officer—more, much more, I doubt not, than I have deserved at your hands.

And in replying to the very flattering testimony of approbation, which you have been pleased to bestow upon me, pardon me for saying, that although ardent and impulsive in my temperament, and lacking that experience and wisdom of years which so many among you could have brought to this chair, it has been my constant study and desire to cast aside all party predilections and personal prejudices, in the discharge of my official duties, and to render strict and impartial justice to all; and if I have failed, or come short in this, on some of the many trying occasions and excitable questions that have arisen among us, I now ask the forgiveness of those towards whom I may have dealt unjustly, if any such there be.

Gentlemen, in parting with you I feel the most deep and lasting emotions of friendship swelling my heart; most of us, I trust, may meet again in our journey through life. But, although the eye of a just and merciful God has watched over us and preserved our healths and our lives during our labors here, and for which we never can be too grateful, still, death is the lot of all, and many of us may never, *never* meet again.

But in the warm welcome to your homes by your families and friends, you will find an ample recompense for the loss of friendly association with each other here.

Gentlemen, believing your constituents will be doing you but common justice for your watchfulness and assiduity for their interests, in saying: well done, good and faithful servants, I now, with a heart-felt God bless you, bid you farewell.

Mr. Movius, from the joint committee appointed to wait upon the Governor, reported that they had discharged the duty assigned them, and had received for answer that he had no further communication to make.

On motion of Mr. Cartter,

The House adjourned without day.
